Career Objective

Motivated Electronics and Communication Engineering student with hands-on experience in software and IoT projects, seeking an opportunity to utilize my knowledge of Java, SQL, and Web Technologies to develop innovative and user-focused applications.

Education

Bansal Institute of Science & Technology Bhopal, Madhya Pradesh 2023 – 2027
B.Tech | CGPA: 7.52 (Till 6th Semester)

Govt. H.S. School, Rajgarh, Madhya Pradesh 2022 – 2023
Class XII | Percentage: 68.6%

V.N.P.H. School, Rajgarh, Madhya Pradesh 2020 – 2021
Class X | Percentage: 69%

Skills

Programming Languages: Java, C++

Web Technologies: HTML, CSS, JavaScript

Databases: SQL, MySQL, Firebase

Tools & Platforms: Git, GitHub, VS Code, NetBeans IDE

Core Concepts: Object-Oriented Programming (OOP)

IoT Exposure: ESP32, ESP8266, Arduino, Raspberry Pi

Projects

Smart Water Leakage Monitoring System: (Hackathon Winner)

Technologies: ESP32, Firebase, HTML, CSS, JavaScript, Blynk

- Developed an IoT-based system to detect water leakage and minimize water wastage using ESP32 and flow sensors.
- Designed a role-based web dashboard (User, Admin, Staff, Government) with real-time monitoring, alerts, and remote motor control.
- Integrated Firebase and Blynk for data storage, authentication, and backup monitoring; secured **1st position in a hackathon**.

Online Test and Career Guidance Platform:

Technologies: HTML, CSS, JavaScript, REST APIs

- Built a web-based examination platform with Login/Signup functionality and dynamic question randomization.
- Integrated News API and AI-powered career guidance with official resource links.
- Designed an interactive interface to enhance students' exam preparation experience.

Shop Management and Billing System:

Technologies: Java Swing, MySQL, JDBC, NetBeans IDE

- Developed a desktop billing application using Java Swing and MySQL.
- Implemented user authentication and automated bill generation features.
- Designed a database-driven system for efficient inventory and transaction management.
